

RV Dump opening March 20th, 2023

Hours of Operation: Monday – Thursday, 7:30 am to 5:00 pm

MWD has operated an RV dump at the WWTP for over 20 years. It is a two-lane RV dump station that includes two-yard hydrants for wash water with two discharge points that can accommodate up to a 4-inch diameter sanitary sewer connection/hose from an RV. The discharge flows directly to the influent lift station/headworks at the WWTP.

2023 OPERATION SEASON

The RV Dump will be available to the public free of charge Monday thru Thursday from 7:30 am to 5:00 pm (closed holidays), starting March 20th & will close for winter mid-November. Address: 7750 W. 2100 S.

CONSTRUCTION ON 8000 WEST

Through the summer and fall of 2023 there will be a district construction project along 8000 West between SR-201 and 2100 South. For updates and the most current information visit the district's website at <https://www.magnawater.com/current-projects>.

RV DUMP IMPACT ON WASTEWATER TREATMENT PLANT OPERATIONS

Because of the close proximity to the wastewater treatment facility, operating the RV dump leaves the treatment plant vulnerable to foreign objects or debris that may unintentionally enter the system. In 2022, a black plastic RV hose came loose from an RV user & damaged pump equipment as seen in the pictures below. Since the RV is open only while the WWTP is fully staffed, we were able to respond & make repairs quickly, however there was still damage & expense associated with the repair. We ask that all users do their best to protect our RV dump to aid in the preservation & operation of the downstream process, otherwise we may have to restrict use further up to & including closure.

(Foreign objects including black plastic hose from RV Dump & rags plugged treatment plant pumps in 2022)

OTHER RV DUMP OPTIONS IN MAGNA

When MWD RV dump first opened, there were no other RV dump stations in Magna, however as of 2023, there are now two Holiday Oil Gas Stations & the brand new Maverik that offer RV dumps for public use. All are more convenient & safer locations for an RV dump station since they allow for more dilution of the waste, & they are located off a main roadway. The Holiday locations charge a small dump fee of \$5.00 but provide 24-hour security monitoring which discourages illicit discharges. The Maverik dump station located at 8000 West is 24/7 & free of charge. For best access, use the furthest south entrance as the RV dump site is located in the SE corner of the property near the high flow fuel pumps.
