

Magna Water RV Dump Opening Soon

2022 Operating Season

The RV Dump will be available to the public free of charge starting March 14th and will close for winter in mid-November Monday thru Thursday from 7:30 am to 5:00 pm (closed holidays)

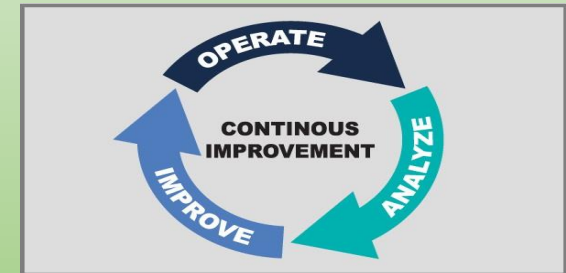

The District would like to remind all users:

The RV dump continues to see heavy use after implementing the restructured operating hours.

The new schedule has greatly benefited the District & has helped minimize vandalism & abuse to the facility while adding additional protection to the wastewater treatment plant & processes.

We do appreciate your understanding, patience & support for changes to the operating hours we've had to make. We recognize this is an inconvenience for some of the RV dump users. We will continue to evaluate ways to expand service hours of the RV dump while balancing the risk to our system & treatment process.

The RV Dump is Located at 7650 West 2100 South
